● ABOUT ME

I'm Juri Dedej, a software engineer focused on building and shipping web and mobile products through modern AI assisted development workflows.

● WORK EXPERIENCE

SOFTWARE ENGINEERING INTERN – UNITED BANK OF ALBANIA – 11/05/2026 – 05/06/2026 – TIRANE, ALBANIA

FREELANCE SOFTWARE ENGINEER / WEB DEVELOPER – – 2023 – Current

- Delivered multiple client websites across e-commerce, hospitality, and service industries
- Built responsive, user-focused interfaces using modern web technologies
- Improved performance and SEO through optimization techniques (lazy loading, caching)
- Developed dynamic applications using React and Next.js

SOCIAL MEDIA MANAGER – ZEJTUNA RESTAURANT – 01/07/2024 – 10/06/2025 – TIRANË, ALBANIA

● PROJECTS

CURRENT
SETDAY

Designed and developed a mobile training and nutrition application using React Native, Expo, TypeScript and SQLite. Built an adaptive Reality Mode that adjusts workouts based on available time, equipment, energy, soreness and travel, together with training plans, nutrition tools and progress tracking.

21/12/2025 – 08/07/2026

Urtësi

Designed and developed a native iOS Islamic companion for Albanian and English speaking users. Includes Quran reading, authentic hadith collections, prayer times, Qibla, dhikr, audio recitation, learning tools, bookmarks and offline content. Built with React Native, Expo and TypeScript and released independently on the App Store.

10/01/2026 – 15/06/2026

ITERA – Mobile Travel Companion for Albania

Developed a cross platform travel companion for Albania as my Software Engineering Bachelor thesis. The application creates multi day travel routes, overnight bases and day by day plans, with offline storage, interactive maps, saved routes and an Albanian phrasebook. Built with Expo, React Native, TypeScript, Supabase and React Native Maps.

Evervow

Designed and developed a digital invitation platform for weddings and private events using Next.js, React and TypeScript. Built animated multilingual invitations, inline RSVP collection, guest management and a studio dashboard for managing couples, bookings and responses.

Link <https://juridedej.com/work/evervow>

KH Yachting

Designed and developed a responsive yacht charter website for a luxury charter business on the Albanian coast. Built the booking inquiry experience, yacht and route presentation, responsive layouts and media focused interface using Next.js, React, TypeScript and Tailwind CSS.

Link <https://yachting.khgroup.al/>

MODUS Event Venue Website

Designed and developed a complete website for a wedding and private event venue. Created the responsive interface, gallery and video presentation, event sections and reservation inquiry flow using Next.js, React, TypeScript and Tailwind CSS.

Link <https://www.modus-event.com/>

NOB Travel

Developed and maintained a responsive travel platform with booking functionality. Worked on website development, mobile responsiveness, performance optimization, content updates, feature improvements and ongoing client support using React, Next.js, JavaScript and Tailwind CSS.

Portfolio

Designed and developed my personal software engineering portfolio to showcase shipped web and mobile products, technical skills, certifications and freelance work. Built as a responsive interactive experience with modern frontend technologies, motion and custom UI, with a focus on performance, presentation and clear project storytelling.

● EDUCATION AND TRAINING

21/09/2026 – CURRENT Tirane, Albania

MASTER OF SCIENCE IN ARTIFICIAL INTELLIGENCE Canadian Institute of Technology (CIT)

05/10/2023 – 01/07/2026 Tirana, Albania

BACHELOR IN SOFTWARE ENGINEERING Canadian Institute of Technology (CIT)

Website <https://cit.edu.al/>

2019 – 2022 Kavaje, Albania

HIGH SCHOOL DIPLOMA Aleksander Moisiu High School

● SKILLS

Technical and Soft Skills

- **Development:** JavaScript, TypeScript, React, Next.js, React Native, Expo, Node.js, Python, HTML, CSS
- **Web & Mobile:** Tailwind CSS, WordPress, Elementor, Supabase, SQLite, REST APIs
- **AI Assisted Development:** Claude Code, Codex, AI assisted debugging, implementation and rapid prototyping
- **Tools:** Git, GitHub, Linux, Visual Studio Code, Expo, Vercel
- **Product & Design:** UI Design, UX, responsive design, product prototyping
- **Software Engineering:** System understanding, debugging, testing, API integration, database integration
- **Professional:** Problem solving, client communication, teamwork, project management

● **LANGUAGE SKILLS**

Mother tongue(s): **ALBANIAN**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
